bloq

ENTERPRISE GRADE BLOCKCHAIN

Welcome

Bloq delivers enterprise grade blockchain technology to leading companies worldwide.

PC Era > **Internet Era** > **Mobile Era** > **Blockchain Era**

Blockchain-enabled technology is changing the way companies approach commerce, trading, transparency, security, identification, supply chain, auditing and so much more — the most significant and valuable business systems in the world will be powered by blockchains.

Philosophy

Open Source

Bloq maintains a deep open source ethos, built from decades of open source experience.

Decentralized

Bloq delivers enterprise grade layers of key software infrastructure to power blockchain applications.

Enterprise Class

Bloq provides essential blockchain scaffolding that is productized, hardened, tested and documented.

Interoperable

Bloq strives to lower the cost and operational barriers for companies to build and innovate with blockchain-enabled technology.

Partners

"We have partnered with Bloq to develop innovative ways to harness the power of blockchain-enabled technology."

Deloitte.

"Bloq adds a critical layer of blockchain scaffolding to help scale this industry into the future."

Microsoft

"Bloq's launch marks another important milestone for the Bitcoin ecosystem."

CIRCLE

"Bloq is a company that will create substantial value for the coming distributed and decentralized future."

bitpay

Solutions

bloqEnterprise

- Stable, modern blockchain router software and associated libraries
- Security fixes delivered rapidly and safely
- Professionally maintained and delivered

- Blockchain infrastructure software platform
- Enterprise grade technology building blocks
- Productized, tested and scalable software solutions

bloqThink

- Strategic architecting and consulting
- Innovation workshops: research, education and training
- Rapid prototype design and development
